

March 25, 2008 Council Report

I would like to thank everyone for coming out tonight.

I have several things I would like to discuss tonight. First, I want to thank the Recreation Committee for another successful Easter Egg Hunt, they put a lot of time and effort into this event and all the children had a great time.

The Environmental Committee is having a neighborhood clean-up behind the 7-11 on Haines Mill Rd. on Saturday March 29th from 11 am.-2 pm. Anyone interested in volunteering is more than welcome to come out and it will be greatly appreciated.

I was told that at last weeks Delran Business Association meeting they added seven new businesses. That would make the Delran Business Association a total of 30 businesses strong. Congratulations to all members who continue to make this a great success.

I was informed this past month that a Delran resident who had the very sad misfortune of losing a son in an automobile accident 2 ½ yrs ago is looking in to making a contribution to the township to help with Delran Parks and Recreation Fields. I have asked Jeff to reach out to him and to work out the details. I would like to thank the Kostic Family for their proposed donation and at the same time offer our sincere condolences on the loss of their son.

Finally, I had proposed that council once again review each line item on the budget over the weekend to see if any other items could be cut or reduced rather than going forth and drawing from next years surplus. Maybe, we can't cut the entire deficit but anything would be less of an impact.

Also, I requested an unofficial copy our February 20th and 26th budget meeting minutes from the township clerk and administrator since they have not been distributed for council review as of yet, but they will be available unofficially for residents to view on my web-site at www.Delran.net.

The February 20th minutes I received tonight and I anticipate receiving the 26th minutes later this week.

Thank you
